STUDY IN SLOVENIA

Erasmus+

MARIBOR: Did you know ...?

STARA TRTA: “Žemetovka”, the red Slovenian wine grape variety, is the queen of all grapevines, located in the old part of Maribor, beside the River Drava. It is over 400 years old and listed in the Guinness book of records! It is the only plant with its own museum in the Old Vine House!

THE FIRST ELECTRIC BULB IN SLOVENIA: It was lit on 4th April 1883 in Maribor, only four years after T. A. Edison invented and got a patent for the light-bulb with a carbon filament in the USA.

RAILWAY CONNECTION VIENNA–TRIESTE: Maribor experienced strong economic development mid-18th century, when it became one of the first in Europe to receive an important railway connection between Vienna and Trieste.

FESTIVAL LENT: The Lent International Summer Festival is a major arts festival held for approximately two weeks at the end of June annually in Maribor, Slovenia. It attracts theatre, opera, ballet performers, classical, modern, and jazz musicians and dancers from all over the world as well as visitors! It's worth visiting!

MARIBOR: Did you know ...?

WINE CELLAR: Slovenians surely love their wine! The Maribor city centre hosts one of the largest and oldest classical wine cellars in Europe! The oldest part of the cellar spreading over 15,000 m² and boasting 2.1 km long underground passages was built in 1847. Wooden barrels, concrete tankers, bottles with wine patina, etc. have a total capacity of 3 million litres!

STADIUM "LJUDSKI VRT": In Maribor, football matches take place at the stadium "Ljudski vrt". Its notable feature includes the main stand 129,8 m long and 18,4 m high concrete arch that is protected by the Institute for the Protection of Cultural Heritage of Slovenia as an architectural and historical landmark. Violet is the sacred colour of Maribor Football Club! However, if you wear green during the match, stand closer to the exit.

LEON ŠTUKELJ: He was a Yugoslav gymnast of Slovene ethnicity, Olympic gold medalist and athlete. His 100th birthday in 1998 was a major celebration in Slovenia. Štukelj still exercised regularly even just before he passed away. He is the longest living individual Olympic gold medalist! The University Sports Hall situated on the campus of the University of Maribor is named after him.

Advantages of Studying at the University of Primorska

MORE THAN NUMBERS

Our students greatly value a personal approach and our surveys show their high satisfaction with student-teacher relationships

Advantages of Studying at the University of Primorska

YEAR PLUS

Year Plus enables foreign students to adapt to the new system and language. Students who do not speak Slovene and are enrolled for the first time in a study programme conducted in Slovene, can focus on the study of Slovene, and having completed a total of 30 ECTS, they can re-enrol in the first year of study.

Advantages of Studying at the University of Primorska

STUDY AT THE ADRIATIC COAST

The University is located in Slovenia's coastal region, between the borders of Italy and Croatia in an officially bilingual region (Slovene, Italian) and Slovenia's most ethnically and culturally diverse region. In this vibrant environment, students have the chance to explore different cultures and enjoy the picturesque Adriatic seaside.

Advantages of Studying at the University of Primorska
